4 Questions to Consider for Cloud Deployment

The cloud offers several strategic benefits, such as providing online access from anywhere, increasing infrastructure efficiency and allowing for very rapid changes. However, supporting cloud-based apps requires careful thought regarding optimizations to your IT infrastructure. Here are 4 questions you should answer in advance.

The Hidden Costs of Multi-Vendor Management

When multiple sites need technical support, it is easy to assume that paying a local vendor at each location is cheaper than flying centrally-located staff from place to place. But companies are often disappointed when the financials come back and they don't see the ROI they hoped for. Luckily, there is a more profitable and streamlined option!
